ABOUT US

Link-Spectrum Technologies Limited an ISP & Information Technology company with expertise in System Integration, was established by experienced and capable professionals of the field. It was registered in 2008, but due to business expansion, it was later upgraded to a limited liability company in 2017.

We are a team of passionate IT professionals who follow the latest technological trends. We grow and expand our presence in emerging African markets. In 2017, we opened our branches in United Kingdom and Abuja.

Our areas of specialization are:

- IP network Infrastructure
- Last mile Solution on Fiber, Microwave, VSAT
- Fiber Optic Cabling (FTTx)/Wireless (RF)
- Application (Software) Development
- IP Broadcast Transmission
- IT Consultancy
- Project Management

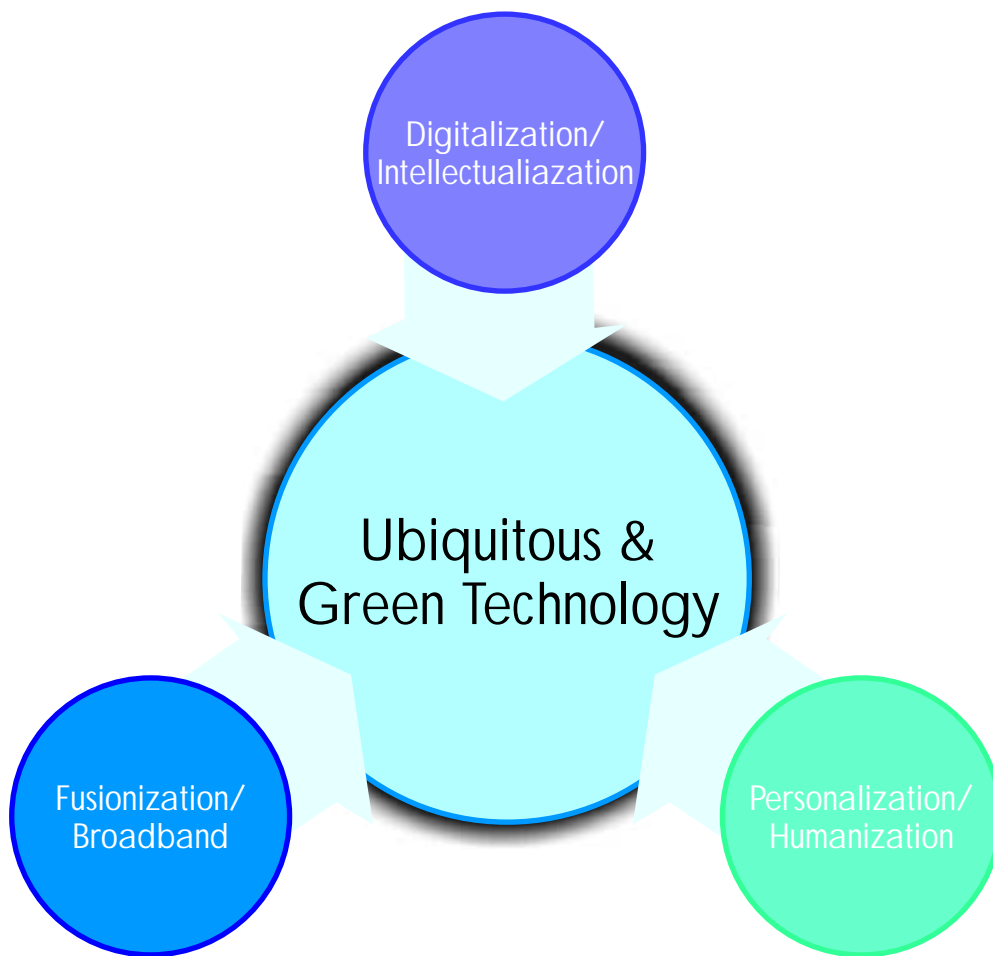

Our strength in IP Network Design and System Integration are well recognized by industry players and end-users globally. Our highly qualified engineering and R&D team develop and design the most advanced state-of-the-art technologies and tools to ensure the success of ourselves and our clients in their respective projects.

VISION
